Work Experience

1. **BizPilot Financial Technology Private Limited (08/23- 10/23)**

   - **BizPilot**

   Position: Software Engineer

   Technologies used: React JS, Redux, Styled, Typescript, CSS, Figma.

   Product Links: https://www.bizpilot.in/, https://app.bizpilot.in/

   Role & Responsibility:
   - As a senior member of the frontend team, I am crucial in elevating the quality of BizPilot's frontend code standards.
   - Currently supervising an intern and handling onboarding frontend team members.

   About Product:
   - BizPilot is a product built in React.js that focuses on accounting, invoicing solution, expense management, automated payouts, taxes, and compliances.
   - The product has proven successful, serving 12 companies effectively.

2. **Bizolution Technologies Private Limited, Raipur, C.G. (07/21 - 07/23)**

   - **Entera**

   Position: Software Engineer

   Technologies used: React JS, Redux, Node JS, Material UI, SQL, CSS

   Product Links: https://entera.in/ , https://entera.co.in/login

   Role & Responsibility:
   - As a key member of the frontend team, I played a pivotal role in building Entera from scratch while maintaining exceptional productivity.
   - Successfully converting Figma wireframes into highly responsive React components. Generated innovative ideas, translated them into accepted features, and improved functionality and user experience.
   - Successfully supervised 3 interns in the past and was a reporting manager of 1 frontend trainee.

   About Product:
   - Entera is a SaaS product built in React.js that focuses on comprehensive employee management.
   - The product has proven successful, serving five startup companies effectively.

3. **Internships**
   - **Arawinz Soft Solutions Pvt Ltd, Hyderabad, Telangana - Esay.in (07/19 – 09/19)**

     Product link: https://www.esay.in/

     Role & Responsibilities:
     - Written many SEO friendly Content in the form of blogs (400-2000 words)
     - Managed ESAY's social media and designed Instagram content using Figma.
     - Learned web development basics.

   - **Obabuji.com, Indore, Madhya Pradesh (07/18 – 09/18)**

     As a Digital Marketing Intern, I acquired expertise in digital marketing and creating top-notch SEO content for enhanced online visibility and engagement.

4. **Final Year Project**
   - **Barcode Based Payment System**

     Technologies used: Java, SQL, MySQL, NetBeans, Xamp

     Summary: Independently conceived and executed this project that can revolutionize banking transactions in organizations. Leveraging barcode technology, I implemented secure and efficient payment processing through barcode scanners, significantly reducing reliance on conventional banking methods.
